IQAC-Report

Part-A

The plan of action chalked by IQAC in the beginning of the year towards quality sustenance and the outcome achieved by the end of the year.

The IQAC has decided following plan of actions towards the quality sustained in the college

1. To improve the infrastructure of the college.
2. To start computer course in the college.
3. To facilitate the students and teachers for research work.
4. To adopt the life skill education programs in the community
5. To develop a competitive examinations centre in the college.
6. To form a band between Alumni of the college and parents.

1. To improve the infrastructure of the college:

To impart the quality education to the students it is always necessary to have good infrastructure in college. Therefore IQAC has paid attention to enhance the infrastructure and facility of the students in the college with support and guidance from the management. An Extension of new building is in progress which will provide additional space for class rooms, and laboratories.

We have also added some new and important instruments a equipments like specto-Photometer in the college, LCD projector has been purchased to give the additional audio-visual aids.

Some additional facilities like internet center, open-library access has been provided to the students.

2. To start computer courses in the college:

To give the computer literacy among the all students in the college, Dept. of Computer Science has organized a basic computer course. It is a certificate course of 20 hours. Our staff from Computer Science and Information Technology Dept has taken initiative to start this course. It covers Computers & Microsoft office 2007. Eight Students have completed this course and will be continued in this year also.

3. To facilitate the students and teachers for research work:

As being the science college and as it is very important for an educational institute to be involved in research activities IQAC has concentrated to facilitate the students and teachers in the research work. An intra collegiate Research project competition has been conducted, selected students were send for intercollegiate Research festival 'Avishkar' organized by University of Mumbai.

Many teachers has been permitted to attend National, State level Conference, Seminars and symposiums to present their research Papers.

Four Teachers are doing their research for Ph.D. and two teachers have submitted their proposal for research grant to the UGC.

4. To adopt the life skill education programmers in the community:

We are always trying to have a link with the community. College is having various extra curricular activities which helps student for their personality development as well as we also have extension activities. We are conducting various life-skill education programmers in the community there is National Science Scheme and Dept of Life long learning, there are two types of programmer- Awareness programmers to enrich the knowledge of the people and imparting various types of skills to the needy women's , and other people including Students.

The program includes Awareness on AIDS, Health & hygiene , School education child Development, Environment Conservation and training programs on tailoring ,painting, Women's rights etc.

5. To develop a competitive examination center in the College :

Every student has to face one or other competitive examinations for getting admissions in higher education or employment. Therefore the college has started a competitive examination center. We have invited eminent personalities to deliver the lectures and guide students on competitive examinations. We have also invited some of the successful candidates of competitive examinations who are working today as PSI, SOD, Deputy Collectors and other class I officers of the district.

We have also purchased the books on competitive examination .Our career Guidance cell conduct a General Knowledge Test every month for the students to make them habitual of the competitive examination

6. To form a band between Aluminis of the college and Parents:

Students parents and Aluminis of the College are stakeholders of the education. There Association with the college is very much essential for getting feedback evaluation and development plan of the college.

We have Parent-Teacher Association. We organize several meetings with parents to discuss the progress of their wards and to get feedback on the college system. We certainly get some valuable suggestions from the parents.

We have an Alumni Association. We used to have at least two meetings of Alumni Association in a year. Alumni who are the part of society today are certainly found to be helpful to the college in one or the other way. There is good practice of Alumni and they are very proud to be the Alumni of this college.

Part – B

1) Activities reflecting the goals and objectives of the institution:

- a. Konkani Education Society's holistic Vision " ***Education for All***" which gives freedom to a person. The post accreditation quality education gives stakeholders perfection in life.
- b. Providing urban amenities in rural areas, students should think logically, analytically and critically.
- c. To motivate students an honorable living that is employability by learning vocational skills and contributing National development.
- d. To encourage students for interacting faculty for development in terms of physical, emotional and intellectual, aesthetic and fostering Global competence.
- e. In order to be able to impart quality education is viewed as the transmission of values and accumulated knowledge of society success of any institution depends on the qualities of students. Knowledge is regarded as the highest virtue of man for survival in the 21st century.
- f. Our society's motto " ***Education for all***" has been a panacea from the beginning, commencing from primary education to post graduate education.

2) New academic programmes initiated:(U.G and P.G.)

P.G course in M.Sc. Organic Chemistry Final year has been started in the academic year 2009-10.

3) Innovation in curricular design and transaction:

Curricular development and design is an overall development of objectives of stakeholders. The curriculum design in the affiliated colleges go by the curricular modes of transaction and evaluation designated by the parent university.

4) Inter-disciplinary programmes started:

To produce efficient youth with good communication skill. This become an impediment in the development of the country particularly inter disciplinary lectures were arranged for first and second year students of aided and unaided students.

There was an inter-disciplinary lecture was arranged and delivered by Dr. Sharad Kale, Sr. Scientist BARC, Agricultural division on the subject "Biological and atomic sources of energy for India in 21st century", dated on 14th Nov. 2009.

5) Examinations reforms implemented:

There is no flexibility in the reforming the exam system as the guidelines of the university examination pattern for regular and Management run un-aided courses ought to be followed. However, the statutory committee follows the ordinance, statutes, rules and regulations set up by the university very meticulously.

The following reforms are being practiced which care for fostering quality in the examination system. Despite the cease of work more than 44 days examinations are conducted on time and results are correspondingly declared without any major walkout, leakage of question paper or postponement or controversy or acrimonious exchange of charges of favoritism.

As per Right to information act, October 2005 there is a transparent procedure to verify the answer papers after paying due fees satisfying all as how the students not fared in the theory papers.

Regularity like class attendance of 75% and 90% of practical attendance, periodic tests, tutorial remedial coaching for back loggers and the students who participated University level competitions are taken care.

Periodic monitoring of students as per tutorial and week end tests one of the methods have been continuous internal assessment in all the regular and the management run un-aided courses the examination reforms are long term practice for term end and annual improvement. The college statutory examination committee has norms and procedures for ensuring the objectivity and fairness of the conduct of examinations as reported in previous AQAR.

Most of the exam work done in the confidential mode and is required to be done even after the completion of the college working hours. This could be an incentive in an organized cooperative manner.

The conduct of assessment and evaluation and display on the merit list who are eligible for scholarships are a strenuous exercise despite the modern computer locally developed software.

The examination system that is heavily dependent on others whose loyalty is always a matter of help and courtesy rather than duty under the system. This is a reform and not a revolution as it is a gradual change that could help confidential endeavour. All the teachers have to encourage and play their decisive role in the efficacy and credibility of examinations.

The senior teachers who contribute to the sanctity of the conduct of examinations should be identified and suitably given duties in the term end and Annual examinations. Similarly non-teaching staff who help in coordination and to meet the deadlines for declaration of result should be encouraged as per university staffing pattern.

6) Candidates qualified: NET / SLET /GATE etc.

Some of our teachers have qualified before accreditation.

Mrs. Smita T. Morbale SET qualified candidate joined in this academic year.

7) Total number of seminars/workshops conducted:

Seminars and workshops are considered to be an important component for the faculty development. The college management have taken several measures for regular and management run unaided Asst./Asso. Professors have presented, participated and rendered their services on different capacities in parent university and neighboring universities.

Initiatives towards faculty development programme:

In order to keep themselves updated in the various developments the teaching faculty of the college are continuously updating their knowledge and in order to encourage this college sponsors registration fees for all the staff members attending seminars, work shops, conference, refresher and summer school etc., such courses aim at providing latest inputs to enrich the faculty members which would not only help them in improving their teaching and research skills but also help them in professional growth.

27. Computer and Internet access and training to Teachers and Students:

Faculty has a major role in student's involvement with Computer and Internet access. Student's development has direct relation with all teacher's assignment and project work. In today's teaching and learning most of the computer and Information Technology students are using Internet application for access to educational resources and e-mail is a common access with teacher and the student.

In order to realize the project work assigned three essential components.

- 1) Well defined comprehensive multidisciplinary projects.**
- 2) A flexible yet rigorous assessment tool in the form of student learning portfolio.**
- 3) A protocol for delivering technical information on need basis.**

Students, non-teaching staff of regular and unaided sections are well versed in the ICT surfing and browsing the nascent developments for day to day teaching, project preparation and downloading of university circulars, time tables of various examinations. University of Mumbai started e-enrollment and our digital enrollment committee caters all the precautions for digital, post digital hard copies to dispatch the concerned section on time for enrollment and confirmation.

There are 5 Scheduled Caste students whose parental annual income is less than 1 Lakh also received a amount of Free ship worth of 41099/- The special backward students also received 16531/- and 143512/- scholarship and Free ship respectively. The Government of Maharashtra social welfare department are not in a position to disburse entitled amount till to date. There are 101 number of students sought scholarship and 51 students sought Free ship in the last financial year.

29. Activities and support from the Alumni Association:

Sincere efforts are being made to form a union in due course of time.

30. Activities and support from the parent teacher association:

As a part of post accreditation benchmark the college management keenly emphasizing quality paradigm in maintaining the standards of higher education. The Seven criteria individually and collectively focus on quality. The NAAC has created an awareness about the sense of participation of stakeholders. The PTA has been working one of the benchmarks for the ensuing reaccreditation. This academic year there were two meetings , one at the end of the first term and the other after the preliminary examination schedule. Parents, students and subject concerned teachers have apprised the efforts taken by the college administration and the management keenness for student progress and preliminary examination report. Sporadically fewer parents also meets the concerned faculty regarding their wards disinterest with prior appointment.

31. Health Services:

We are concerned about the health of both students and staff. The NSS unit time and again arranges AIDS checking test, eye checking camp, donation of the blood, inculcating yoga and meditation to all teaching and non-teaching staff members. The Reliance Industries Ltd.(NMD) medical unit and primary health centre Nagothane both units are voluntarily rendering their help various activities of our students. The medical officer residential supports his services round the clock. The students of NSS Unit often needs his services during the residential camp at the adapted village.

32. Performance in sports activities:

Our college students have an inclination for participating in the zonal and university level. There is a cease of work fewer of the activities were taken up seriously due to paucity of time. The other college activities in sports and games were successfully organized.

33. Incentives to outstanding sportspersons:

Sports dress, sport shoes are given to the student who are participating in the zonal and university level. A student who have excelled will be felicitated in the annual prize distribution ceremony.

Annual sports meet were arranged during Dec/Jan 2009-10. Total 202 certificates and 18 mementos were given to the sports men/women. The following students have been adjudged Mr. and Miss college by the sports committee.
